

EUROPEAN SUPPLIER OF QUALITY METAL PARTS AND WELDED CONSTRUCTIONS

By cooperating with world-renowned machine equipment manufacturers, we have proven our expertise with precise capabilities in production of metal structures, as well as meeting all our customers' specific requirements.

Our main activities are manufacturing of:

- **machine parts for construction machinery**
(cabins, fuel and oil tanks, chassis, staircases...)
- **food industry**
(baking ovens and other equipment including meat and dairy industries, etc.,)
- **boilers for heating**
- **recycling metal equipment and parts**
- **other metal structures according to our customers' wishes.**

We approach each project comprehensively: from defining the requirements together with the customer, through the creation of project documentation and the necessary calculation, to product manufacture and testing.

We are looking forward to cooperating with you!

YOUR SUBCONTRACTING SOLUTION

QUALITY.

Supreme quality without compromise.

The quality management system is an integral part of all our business processes. We invest our knowledge and experience into highly organized and tightly controlled production.

We guarantee you supreme quality.

Our production process is completely in line with European standards and the requirements of the ISO 9001:2008 standard. We hold the Certificate of Manufacturer Classification for Welded Steel Construction according to the EN 1090 EXC3 standard, and we have mastered the MAG/MIG, TIG and REL methods. We place special emphasis on environmental protection, and thus we have certified our Environmental Management System according to the ISO 14001 standard.

We also hold the AD 2000 - Merkblatt HP 0 / HP 100 R / TRD 201 and EN ISO 3834-2 certificates.

RELIABILITY.

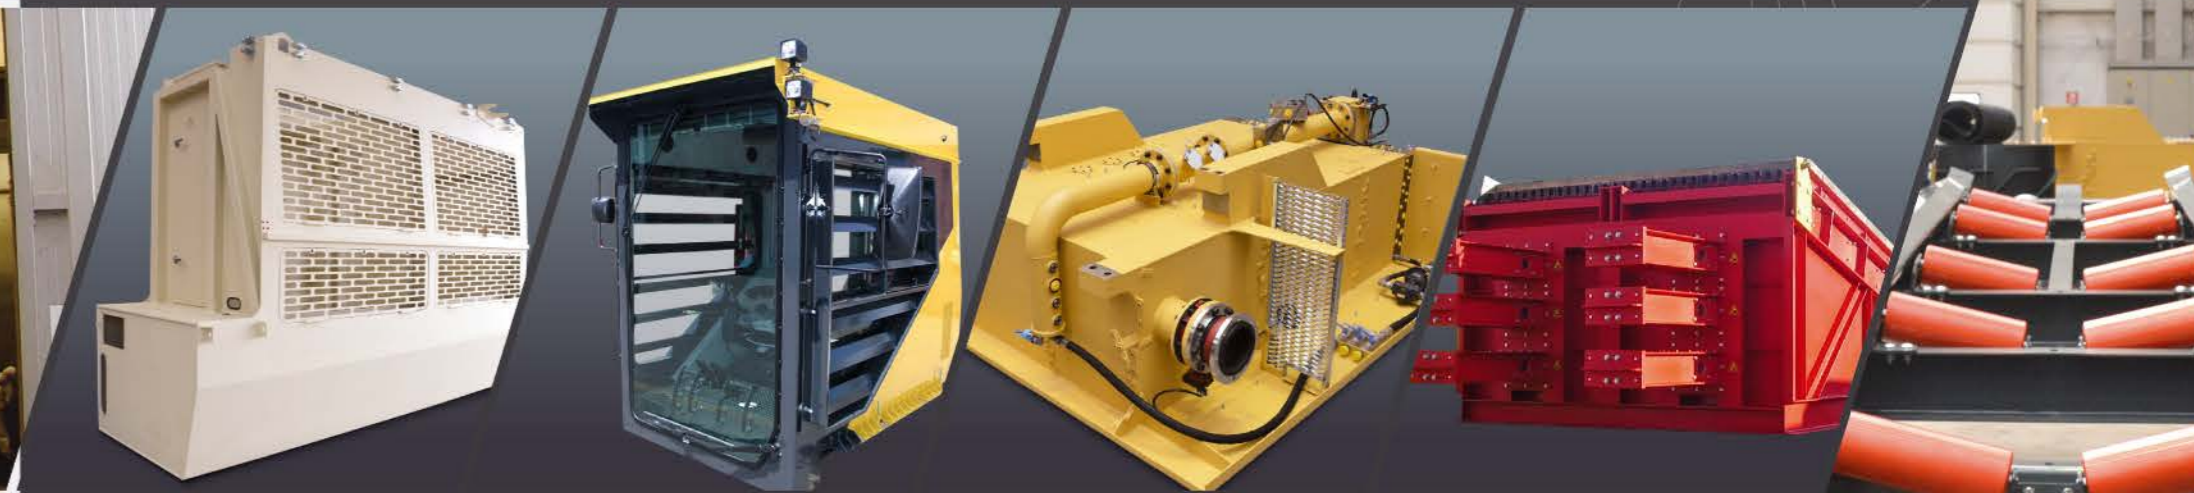

You can always count on us.

We are completely dedicated to our customers' satisfaction by building long-term partnerships. We approach each project individually and take into account all your specific needs.

We promise you a fair treatment, adherence to all contractual elements, and permanent expert support by our staff. Our employees are our greatest asset, and thus we continuously invest into their education, training and development. We are sufficiently staffed and trained for the most complex projects.

SPEED.

Always on time.

Respecting the agreed deadlines is one of the basic postulates of our business. Our business processes have been exquisitely optimised, which, apart from our excellent technological equipment, enables us to execute complex projects and large batches in very limited time frames.

We have organised mechanical engineering, machining and assemblies on over 20 000 m² of production floor with modern equipment, with a new 1 700 m² paintshop containing two painting lines and a degreasing chamber.
